A Dependent Electorate.

EDITOR BULLETIN: -I have bought a copy of Godfrey's Directory containing the list of voters registered for the first elec-tion under our Republic. I find by actual count out of the 1916 names therein contained about one fourth (say 450) are either members of the Government or drawing salaries or wages from it exclusive of laborers under the Road Supervisor or other branches of the Government. Of these more than a quarter return their occupations as "soldier," exclu-sive of those labelled as officers, and more than one-third of them, whom a grateful government supplies with board, lodging, clothes and washing free, are classified as being able to vote for Senators. That is they must have proved to be drawing pay amounting to \$50 a month or over or have private incomes, making with their pay that amount or over.
Think of it, Mr. Editor: What is
the country coming to when the administration in power (whether now or at a future time), directly controls more than one-fourth of the electorate through their salaries. It is not as in the States where all officials are elected and so directly responsible to the people. Here they are all appointed and removable by the Executive. Every office here is a presidential one, either directly or indirectly, down to the man who handles a pick and shovel on the road. What opportunities of corruption when we get a Govern-ment not so scrupulously honest and impartial as the present. And again think of one hundred and twenty men living in ease on the fat of the land as drones, not performing one useful piece of work for the country, over one-third of whom have Senatorial voters' incomes, when so many Portuguese and Hawaiians can hardly find bread for

share of the expenditure.

It was rumored about town early Monday morning that the Japanese steamer Nanshau had brought news of the arrest of C. Afong, the wellknown Chinese merchant, in China. Afong, it is said, was arrested for selling rice to the Japanese, the price paid being \$15 a bag. Mr. Afong had not been tried. The report is not believed by Mr. Afong's most intimate friends, and probably emanated from enemies.

There is no medicine so often needed in every home and so admirably adapted to the purposes for which it is intended, as Chamber-lain's Pain Balm. Hardly a week passes but some member of the family has need of it. A toothache or headache may be cured by it. A touch of rheumatism or neuralgia is quieted. The severe pain of a burn or scald promptly relieved and the sore healed in much less time than when medicine had to be sent for. A sprain may be promptly treated before inflammation sets in, which insures a cure in about one-third of the time otherwise required. Cuts and bruises should receive immediate treatment before the parts become swollen, which can only be done when Pain Balm is kept at hand. A sore throat may be cured before it becomes serious. A troublesome corn may be removed by applying it twice a day for a week or saved or a pain in the side or chest relieved without paying a doctor bill. Procure a 50 cent bottle at once and you will never regret it. For sale by all dealers. Benson, Smith & Co., Agents for the Hawaiian Islands.
